NBCP MEMBER IN GOOD STANDING

To be a member in good standing of NBCP all producers must:

- ensure that they are paying levies for all animals sold including pure bred sales.
- sell their animals to only those Licensed Dealers, Abattoirs or Auction Barns who have a current valid license
- be remitting levies directly to NBCP for all animals sold other than to Licensed Dealers, Abattoirs or Auction Barns.

It is the law and for our producer's benefit that:

- all Livestock Dealers, Abattoirs or Auction Barns must have a current valid Dealer License to purchase cattle in NB
- all Licensed Dealer's, Abattoirs or Auction Barns must provide producer's with a Dealer Field Report receipt or Auction Barn receipt. The Dealer Field Report book contains 3 part receipts. One part is kept by the Dealer, one part is the producer receipt and the last part is to be returned to NBCP monthly with the levies paid by producers.
- all Licensed Dealer's, Abattoirs or Auction Barns must post their License and also have a wallet card for employees who will be handling your animals.

The Dealer Field Report receipt books were developed for our producer's benefit to act both as a receipt and also shipping manifest. This is your proof of who you sold your animals to, the date, the number of animals that were sold and also this is your proof that the levy was deducted for your animals sold.

NBCP has a list of all current valid Dealer's Licensed and the information is available to all producers on the website.

NBCP will be maintaining a database of all producers' receipts and they will be cross-referenced to the Dealer's submission of levies. This will confirm that the levies you pay are being submitted to NBCP to ensure your "good standing" with NBCP and facilitate your participation in all programs and projects offered to producers.
